Mr. Kruse,

I am in receipt of your emails dated Feb 21, 2023 and Feb 22, 2023. The first email you sent has ".com" and it should be ".org".

The Sheriff's Youth Foundation's (SYF) goal is to offer safe opportunities for youth to grow and develop the skills they need in life to succeed through activities such as team sports, mentorship, life skills, afterschool programs as well as attending cultural and community events that promote civic engagement. With that being said, we seek out and welcome any funding that will benefit the youth we serve because in return, it will ultimately benefit the community. The Sheriff's Youth Foundation itself is affiliated with the Los Angeles Sheriff's Department; however, our organization is a separate entity and is made up mainly of volunteers with its own 501C(3).

Based on the articles that were written about our organization over the weekend and the issues that were brought to light by the Hollywood Studio District Neighborhood Council (HSDNC) we have opted to decline the offer for the proposed funding. As of today, our Youth Empowerment event has been postponed indefinitely. It's unfortunate that this situation took place and as a result will impact the youth we were hoping to serve. Our goal is to empower youth, guide them to be better citizens, and build strong ties between community and law enforcement.

For any additional questions regarding funding please contact HSDNC.

Best regards,

JAMIELYN FLORES
Executive Director
